

GP Tips 'n' Tricks from Altico

There are dozens of little tips and tricks for using your Microsoft Dynamics GP system that can make your life ever so much easier. We'll be bringing you a new tip every month in the hope that you find them useful.

The resident Altico wizard presents your March 2009 GP tip:

Deleting Parts, Customers, or Vendors? Don't Reuse the ID!

Unless you take care to purge all of the sales and purchasing history for inventory items, customers, and vendors, reusing an ID will cause the new item, customer, or vendor to pick up the history of the original item. Imagine a new customer's surprise when your AR clerk calls them and discusses all of their old bad credit history!

Be safe. Always use new IDs for new customers, new vendors, and new inventory items!

I'm NOT the resident wizard, but be that as it may, you're welcome to channel your questions through me.

Yours,

Marcia Nita Doron
