

CRM Tips 'n' Tricks from Altico

There are dozens of little tips and tricks for using your Microsoft Dynamics CRM application that can make your life ever so much easier. We'll be bringing you a new tip every month in the hope that you find them useful.

The resident Altico wizard presents your March 2008 CRM tip:

Fitting Three Fields Across a Form

If you want to put three fields alongside each other on a form you have to remember to do the following:

1. Add a new section
2. Enter the section name
3. Change to the formatting tab
4. Change the section layout to "Variable Field Height"
5. Select Three Columns
6. Click OK
7. Add fields as required

I'm NOT the resident wizard, but be that as it may, you're welcome to channel your questions through me.

Yours,

Marcia Nita Doron
Marketing Director
